OVERDOSING ON PRESCRIPTION DRUG COSTS

scriptsourcing

According to a study by the Mayo Clinic, 7 out of 10 Americans are currently taking a prescription drug – who is covering this cost?

25% of healthcare spend is on prescription drugs; 25% of the drugs are name brands which represent 80% of the total spend.

Name Brand medications are increasing in cost at a rate of 13% per year.

The top 50 Generic medications have increased 373% in cost over the past 4 years.

New arrival Hepatitis C Specialty medications cost \$1,150 a pill.

Specialty Meds will represent 50% of an employer's Rx spend by 2020.

Medication non-adherence and pill skipping have become a growing epidemic as patients can't afford their Rx deductibles and copays. In fact, 20% of all hospitalizations are the result of medication non-adherence, and the average 3-day stay in a hospital is over \$30,000.

OUR PROGRAM FOR HEALTHY RX SPEND

International Pharmacy

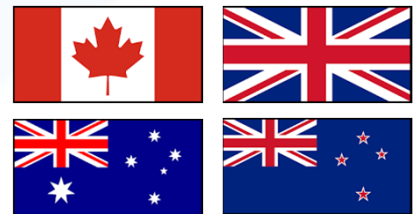

USA consumers pay up to 16x more than other countries for the exact same name brand meds.

Our international pharmacy management firm has been sourcing meds internationally for employers for two decades without incident through 4 “tier one” countries.

A “tier one” country is a country deemed by Congress to have the same or higher standards as the FDA. Name-brand meds are sourced through Canada, United Kingdom, Australia, and New Zealand, English-speaking countries that negotiate directly with the pharmaceutical manufacturers.

Safety Protocols:

- All meds are factory packaged and sealed
- Only FDA-approved meds are shipped
- Up to a 90-day supply will be shipped
- No sourcing of heat or cold sensitive meds
- No sourcing of narcotics
- Members need to have a 30-day supply of meds on hand when establishing an account
- It takes about 3 weeks to set up an account
- Members will be contacted on a quarterly basis for reorders
- All pharmacies have been inspected and have licensed pharmacists on site
- The pedigree of all meds can be tracked

Features & Benefits:

- \$0 Rx Copay for maintenance name-brand meds
- +70% savings
- 90-day supply mail order program
- Comprehensive employee engagement program

FACT: 20% of an employer's population, has at least 1 chronic condition and take 4 or more medications. Researchers estimate that eliminating copayments for patients at medium to high risk of heart disease would improve adherence sufficiently to avoid 90,000 hospitalizations and generate savings exceeding \$1 billion.

GETAWAY DESTINATION: ACCESS EXCELLENT TREATMENT WITH LOWER SPECIALTY MED COSTS

Introducing Our Pharmacy Tourism Program

ScriptSourcing, at the forefront in helping employers rein in the costs of Rx spending, has partnered with Angeles Health International, a leader in medical tourism in Mexico, to deliver cost-effective treatments and specialty medications for a number of different diseases - from severe plaque psoriasis to Crohn's, Hep C, rheumatoid arthritis, and ulcerative colitis, among others.

Our Pharmacy Tourism Program with Angeles Health International saves employers money - specialty meds can cost you \$50,000 or more a year per patient, with Americans paying more than two times than in other countries. Employees can take advantage of top-quality care at a significant lower cost while squeezing in some R&R. In addition, not only does our program benefit those members who use it but it will also benefit all employees with lower health care spend including lower future premiums, co-pays and deductibles.

**Pharmacy Tourism Program:
Empower Employees to Be Great Consumers of Healthcare**

- Generous VISA gift card to use for air travel and hotel of your choice, extended stay to take in the San Diego sights, companion travel or anything else
- Concierge service, including medical car service to/from San Diego to Angeles Health facility
- Physician consultation
- 6 months' supply of medication

ScriptSourcing PBM Audit Services

Complimentary PBM Audit Services

Eliminate PBM Administrative Errors

The Problem:

- Pharmacy inflation is at its HIGHEST point in history – 13.6% increase in just ONE year.
- Complexities of the industry and PBM agreements put payers in a very difficult position and are consistently finding themselves in a situation of ‘overpaying’ their PBM

The Solution:

- A NO cost, NO obligation, NO risk PBM Audit that results in identifying an average overspend of 3-4% of annual Rx spend.
- Additional On-Going Monitoring services that generate average annual savings of 15-30%.
- Expert contract re-negotiation and RFP consulting services.

The Cost of Delaying:

- PBM audit provisions have limitations (12-36 months). Every day that goes by is a day lost in recoverable assets.
- Why fund your PBM with overpayments? Keep funds within your organization to fund your operations and growth!

Fiduciary Responsibility:

- It is impossible for a plan sponsor to fulfill their fiduciary obligations without an independent, third-party oversight
- A PBM audit helps health plans and fiduciaries fulfill their legal and managerial responsibilities

PBM audit services are available for any client with a \$1MM annual Rx spend or greater. If PBM audit provisions allow 2+ years of retro-audit, client must have a minimum annual spend of \$750K.

As a Fiduciary of your Health Plan, you have a responsibility to make sure your vendors are doing their job properly ... and are working in your company's best interest.

Dear NAME,

In May 2015, Jerry's Automotive, Inc. introduced the ScriptSourcing program (provided through CRX) in order to offer you a no-cost option on select Brand Name maintenance medications.

ScriptSourcing provides you with the opportunity to obtain medications from international pharmacies at a \$0 COPAY. Depending on the medication, **ANNUAL COPAY SAVINGS** can range from **\$240 (Tier 2)** to **\$400 (Tier 3)**.

Here are some of the Brand Name medications found on the ScriptSourcing formulary -

ADVAIR DISKUS	GILENYA
AVODART	NASONEX
BENICAR	NEXIUM
CELEBREX	PREMARIN
CRESTOR	VYTORIN

How to enroll in the program:

- ✓ Review the attached formulary to confirm medication availability – or call 1-866-488-7874.
- ✓ Complete the enclosed ScriptSourcing enrollment form.
- ✓ Ask your doctor for a prescription for a 3-month supply with 3 refills.
- ✓ Ask your doctor to fax your enrollment form and prescription directly to ScriptSourcing - OR - mail your original prescription and completed enrollment form to ScriptSourcing. When mailing, please use the following address to expedite your order:
P.O. Box 44650, Detroit, Michigan 48244-0650.

- Prescriptions will be filled from a government-licensed pharmacy in a Tier-One country (Canada, the United Kingdom, Australia or New Zealand) and shipped directly to your home with **no shipping and handling costs** to you.
- Allow 4 weeks for delivery when ordering new medications.
- New-to-you medications must be taken for 30 days prior to submitting a prescription to CRX. This is to ensure the medication is having the desired effect before a 90-day quantity is issued.
- CRX will call you prior to each refill to ensure that you have a continuous supply of medications.

Contact the friendly Customer Service Reps at CRX (1-866-488-7874) who would be happy to answer all of your program questions and assist in the enrollment process - or visit the website at www.ScriptSourcing.com to learn more!

Sincerely,
ScriptSourcing

ScriptSourcing is a voluntary international mail order option for eligible employees and their dependents of Jerry's Automotive, Inc.

Let us help you get your Rx spend under control, improve member medication non-adherence, and the sustainability of your health plans. You'll save money and have happier & healthier employees.
